## Idea

We have an elevator pitch. It is a high-risk idea. We have a new idea.

Revolutionize the wallet! Compress all plastic to one super secure feature loaded card! Make money on arbitrage& scaling small businesses!!

## Team

We are not going to build it. We have an entrepreneur.

It's just me - but I'm a fast learner, and I'm tired of carrying around too much plastic!

## Product

We do not have a prototype yet.  
I dream about it often.

## Revenue

We will monetise later. We will start by getting users.

Arbitrage, Membership Fees, Scaled Service Fees, Interest

## Funding

We need 12 months We are bootstrapping. We need seed funding.

I need connections more than cash - and someone to push me into committing to making this successful

## Partnership

We want sweat-equity.

I'm offering a chance to make this happen with me - I'm open to the details - but you better have passion for building a cool business.
